A good plan

Anders Levoll and Birgit Ryningen is an ordinary couple dreaming of traveling the world on bikes.

We have an old globe in the living room and a large world map in the bedroom – we are always dreaming of seeing the world. Now our dream is about to be realized!

Happy wheels?

What will happen when the dream comes true? Will we get tired by the dream? By each other? Will we reach our goals? Will the money run out? What will go wrong? Will it be Happy Wheels?

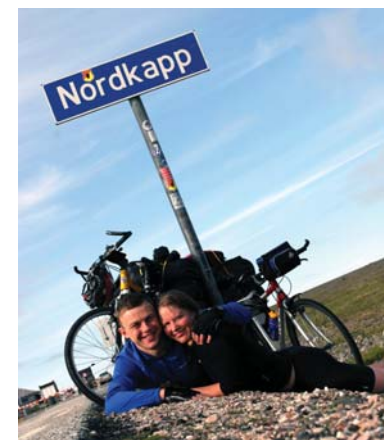

Come along: We would really like to share our journey with you through photo, video and text on: www.lynvingen.org

in every country we pass through. We have two years available for our journey.

Our goal

Two years – two bikes – 20 countries – 20 mountains – happy wheels and a great wide world!

We are counting down the days to the journey's start from home on the 23rd of June 2012 at 00.00.

Dreaming of America

We will start from our doorstep in Trondheim, Norway, continue through Europe and go by plane to the southernmost city in the world; Ushuaia in Argentina. We will then bike the whole length of America – all the way up to Alaska.

We also have a goal of one day have been together on 1000 mountain tops higher than 1000 metres – we are hence planning to include at least one mountain top

Along the road, Anders will realize an old dream of learning Spanish. Birgit, a judo athlete for several years, will stop by judo clubs for practising along the way.

Who are we?

We are a quite ordinary and happily married couple living in Trondheim. Birgit has been competing in judo and is now working as a scientist at SINTEF. Anders has been competing in cross country skiing and cycling and is currently working as an engineering project manager.
